

# Primary Care Psychology Fellowship

## Nemours Children's Health – Orlando, FL

The **Integrated Primary Care** program focuses on training in the integrated primary care setting, providing direct services within a patient's medical home. This fellowship offers the opportunity to work in different primary care clinics, increasing access to care via telehealth and community outreach. Fellows in the Integrated Primary Care fellowship will receive a well-rounded training experience by getting in-depth integrated primary care training while also developing an area of specialty in linking systems of care. Training opportunities will focus on current empirically based assessments and treatments for children ages 3-18 who present with a variety of behavioral health problems in primary care, including (but not limited to) attention-deficit/hyperactivity disorder (ADHD), externalizing behavior problems, anxiety, depression, migraines, abdominal pain, elimination disorders, sleep problems and regimen adherence. Opportunities for Spanish-speaking fellows are available within Nemours, in addition to clinical supervision in Spanish. Applicants ideally will have a background in clinical child and/or pediatric psychology with interest/experience working in a primary care setting.

### Core Experiences

- Integrated Primary Care
- Outpatient Treatment

### Possible Minor Rotations

- Psychological Assessment
- Potential of Supervision of Trainees

- Medical Specialty Clinic
- Group Therapy
- Research Opportunities

### Expectations

We aim to train clinicians that are ready for independent licensure at the end of the training year. A second year may be possible, based on fit and interest.

We expect our fellows to aim for 30 patient contact hours per week, across roles.

Successful completion of the EPPP by the Spring of the training year.

Attendance at didactics, training seminars, and supervision.

### Benefits

Competitive Salary - \$64,302  
Generous Benefits Package  
CE Funding and Educational Costs  
25 Paid Days Off  
Weekly Meals Stipend

### How to Apply?

Send the following materials in an email to our Director of Training, Elie Hessel, PhD at [elie.hessel@nemours.org](mailto:elie.hessel@nemours.org)

- Curriculum Vitae
- Letter of Interest
- 2 Letters of Recommendation
- Letter from DCT indicating status of degree requirements

Applications accepted until position is filled.

## Interview Information

We can't wait to meet you and discuss your qualifications and training goals!

We anticipate we will offer in-person and virtual interviews in January 2025.

### **Elie Hessel, PhD**

Dr. Hessel is our director of training and a pediatric psychologist who splits her time among outpatient therapy, integrated care, and inpatient consults. She may serve as an assessment supervisor, and will serve as a back-up supervisor for you.

### Need More Information?

Our Fellowship Coordinator, Michelle Pizarro, can be reached at [Michelle.Pizarro@nemours.org](mailto:Michelle.Pizarro@nemours.org)

## Primary Supervisors

### **Monica Barreto, PhD**

Dr. Barreto is a pediatric psychologist and the Clinical Director for Behavioral Health for Primary Care in Central Florida. She will be your primary supervisor for all Primary Care-related roles that you provide, and may also provide supervision of assessments. She provides supervision in Spanish as well.

### **Catherine Rama, PhD**

Dr. Rama is a pediatric psychologist who splits her time among seeing outpatients for therapy, group, and completing psychological and autism evaluations. She will serve as one of your primary supervisors for testing cases.

### **Danette Beitra, PhD, ABPP**

Dr. Beitra is a pediatric psychologist who splits her time among the pain program, outpatients, inpatients, assessment cases, and group therapy programs. She will serve as one of your primary supervisors for testing cases, and for supervision in Spanish.
